Summary

Entry-level IT Support / Help Desk candidate transitioning from 13+ years in customer-facing hotel operations.

CompTIA A+ and CompTIA Security+ certified, with hands-on experience in Linux, networking, DNS, Docker and self-hosted services. Skilled in troubleshooting, documenting procedures and communicating clearly with non-technical users in Portuguese and English.

Seeking junior IT Support, Service Desk or Help Desk opportunities in Portugal or remote.

Education

ISCTE – Instituto Universitário de Lisboa Lisbon • Nov 2025 – Jul 2026
Cybersecurity Training

Universidade de Évora 2012 – 2015
International Relations
Studies completed; degree not completed

Escola secundária Severim de Faria High School
Professional Tourism Course 2009 – 2011

Experience

Reditus — Travel Assistance Évora
Call Center Operator Sep 2012 – Apr 2013
Telephone support in Portuguese and English; handled travel assistance requests and incidents.

Professional communication, situation triage and first-contact resolution when possible.

Hotel Dom Fernando Évora
Receptionist Jul 2013 – Dec 2019
Guest reception, billing, reservations, administrative support, incident logging.

Bilingual support (PT/EN) for guests.

Teamwork, shift management and resolution of daily operational matters.

Casa do Vale Hotel Évora
Receptionist / Front Desk Operations Jan 2019 – Jul 2026
First-point-of-contact customer service; resolved guest issues and incidents in real time.

Logged, tracked and escalated incidents; coordinated front-desk tasks and administrative support.

Worked under pressure during peak occupancy; communicated clearly with guests and internal teams.

Used operational systems (PMS / hotel management software) and managed documentation/registers.

Projects

Linux Home Lab — Ubuntu Server, Docker, Pi-hole and Nextcloud
Built and documented a home lab to practise Linux administration, networking and IT troubleshooting. Deployed Ubuntu Server services and Docker containers, configured Pi-hole for DNS filtering and Nextcloud for file sharing, and documented configuration and troubleshooting procedures.
